INTRODUCTION. Children with Down syndrome have multiple malformations, medical conditions, and cognitive impairment because of the presence of extra genetic material from chromosome 21. 1,2 Although the phenotype is variable, there typically are multiple features that enable the experienced clinician to suspect the diagnosis. Among the more common physical findings are hypotonia, small ...

ALL the good things we have come from God. He made the sun to give us light by day, and the moon and stars so we can have some light at night. And God made the earth for us to live on. But the sun, the moon, the stars and the earth were not the first things God made. Do you know what was the first ...
