An Atlas of Radical Cartography is a collection of 10 maps and 10 essays about social issues from globalization to garbage; surveillance to extraordinary rendition; statelessness to visibility; deportation to migration. The map is inherently political-- and the contributions to this book wear their politics on their sleeves.

This Atlas, an anthology of our six surgical reports, examines unwarranted regional variation in the care of several conditions for which surgery is one important treatment option. Each chapter begins with an examination of the underlying condition, the available treatment options before surgery, and the role of shared decision-making.
