

an introduction to nurbs pdf

A NURBS curve is defined by its order, a set of weighted control points, and a knot vector. NURBS curves and surfaces are generalizations of both B-splines and Bézier curves and surfaces, the primary difference being the weighting of the control points, which makes NURBS curves rational. (Non-rational, aka simple, B-splines are a special case/subset of rational B-splines, where each control ...

Non-uniform rational B-spline - Wikipedia

Freeform surface modelling is a technique for engineering freeform surfaces with a CAD or CAID system.. The technology has encompassed two main fields. Either creating aesthetic surfaces (class A surfaces) that also perform a function; for example, car bodies and consumer product outer forms, or technical surfaces for components such as gas turbine blades and other fluid dynamic engineering ...

Freeform surface modelling - Wikipedia

Non-uniform rational B-Splines (deutsch: nicht-uniforme rationale B-Splines, kurz NURBS) sind mathematisch definierte Kurven oder Flächen, die im Computergrafik-Bereich, beispielsweise im CGI oder CAD, zur Modellierung beliebiger Formen verwendet werden. Ein NURBS kann jeden beliebigen nicht-verzweigenden stetigen Linienzug darstellen. Im Computergrafik-Bereich wird die Geometrieinformation ...

Space Modeling and Kit Building : Good modeling, whether from scratch or from a kit, requires great craftsmanship.

HobbySpace - Space Modeling

Raytracing ist in erster Linie ein Verfahren zur Verdeckungsrechnung, also zur Ermittlung der Sichtbarkeit von Objekten ab dem Augpunkt. Das Grundprinzip ist recht einfach. Raytracing arbeitet mit einer Datenstruktur, Strahl genannt, die den Anfangspunkt und die Richtung einer Halbgeraden im Raum angibt. Es wird für jedes Pixel die Richtung des Strahls berechnet, der vom Augpunkt aus zum ...
