A couple weeks ago, I had the pleasure of giving a presentation to a tri-chapter meeting of the Medical Library Association. The topic was why some patients with chronic disease are disaffected and how online

social networks have met some of their needs.

Bacteriality

The Turing test, developed by Alan Turing in 1950, is a test of a machine's ability to exhibit intelligent behavior equivalent to, or indistinguishable from, that of a human. Turing proposed that a human evaluator would judge natural language conversations between a human and a machine designed to generate human-like responses. The evaluator would be aware that one of the two partners in ...
