ISO 45001:2018 - Occupational health and safety management

ISO 45001 is an ISO standard for management systems of occupational health and safety (OH&S), published in March 2018. The goal of ISO 45001 is the reduction of occupational injuries and diseases. The standard is based on OHSAS 18001, conventions and guidelines of the International Labour Organization including ILO OSH 2001, and national standards. It includes elements that are additional to ...

45001 ISO 45001 is a standard for occupational health and safety (OHS) management systems. It is based on the ISO 9001 standard for quality management systems. The standard is designed to help organizations improve their OHS performance, reduce the risk of injury and illness, and improve their overall safety culture. The standard is applicable to all types of organizations, regardless of size or industry. It is a requirement for organizations that want to demonstrate their commitment to OHS to their employees, customers, and the public. The standard is also a requirement for organizations that want to improve their OHS performance and reduce the risk of injury and illness. The standard is a key part of the ISO 9001 standard for quality management systems. It is a requirement for organizations that want to demonstrate their commitment to OHS to their employees, customers, and the public. The standard is also a requirement for organizations that want to improve their OHS performance and reduce the risk of injury and illness.
