Cosmogony can be distinguished from cosmology, which studies the universe at large and throughout its existence, and which technically does not inquire directly into the source of its origins. There is some ambiguity between the two terms. For example, the cosmological argument from theology regarding the existence of God is technically an appeal to cosmogonical rather than cosmological ideas.

Cosmogony - Wikipedia

Physical cosmology is a branch of cosmology concerned with the studies of the largest-scale structures and dynamics of the Universe and with fundamental questions about its origin, structure, evolution, and ultimate fate. Cosmology as a science originated with the Copernican principle, which implies that celestial bodies obey identical physical laws to those on Earth, and Newtonian mechanics ...

The basic question at issue in the contemporary origins debate is whether or not the world was created. It could be tempting to simply put participants in the discussion into two groups—"creationists and evolutionists"—and leave it at that. Some on both sides of the issue would like to do exactly ...

Introduction. Today, the vast majority of pastors and teachers do not interpret the days of creation to be twenty-four hours long. Many accept the current secular view of the age of the earth, and rather than questioning the "secure" and "tested" results of "science" they conclude that a literal six day creation is a misinterpretation of Scripture.
