Palliative & End-of-Life Care - AACN

Palliative care nursing. Palliative care, which is available in all primary care settings and at all stages of illness â€™ not just near the end of life â€™ seeks to improve quality of life and relieve suffering for patients diagnosed with chronic, life-limiting conditions. The palliative approach to care, which nurses have a fundamental role in,...

Palliative and End-of-Life Care - cna-aiic.ca

CONCLUSION. The role of palliative care at the end of life is to relieve the suffering of patients and their families by the comprehensive assessment and treatment of physical, psychosocial, and spiritual symptoms patients experience. As death approaches, the symptom burden of a patient may worsen and require more aggressive palliation.

The Role of Palliative Care at the End of Life

What are palliative care and end of life care? ... Even if the person who's ill doesn't want to have palliative or end of life care, you can still get support. To find out what's available, speak to your GP, the person's GP, or another health or social care professional.
