Cannabis is an annual, dioecious, flowering herb. The leaves are palmately compound or digitate, with serrate leaflets. The first pair of leaves usually have a single leaflet, the number gradually increasing up to a maximum of about thirteen leaflets per leaf (usually seven or nine), depending on variety and growing conditions.

Cannabis - Wikipedia

Oenothera is a genus of about 145 species of herbaceous flowering plants native to the Americas. It is the type genus of the family Onagraceae. Common names include evening primrose, suncups, and sundrops. They are not closely related to the true primroses (genus Primula

The variety of available techniques and analytical methods applied in laboratories calls for the need of defining the scope, range of application and quality of information obtained using each of them with reference to internationally agreed standards. Of these techniques, Gas Chromatography with Flame Ionization Detector (GC-FID) is most used in fatty acids analysis.

GC-FID Method Development and Validation Parameters for

Spotlight IR microscope systems are designed to meet the challenges of an expanding laboratory by generating high-quality, reproducible data from a variety of sample types. The Spotlight 400 FT-IR Imaging System combines high sensitivity and rapid imaging with ease-of-use. The ability to image ...

Polyploidy refers to the presence of more than two complete sets of chromosomes per cell nucleus, which has been considered a ubiquitous phenomenon in plant evolution and diversification (Soltis et al. 2009). The estimation of polyploidy incidence is widely variable in the literature, ranging from 30 to 35 % (Stebbins 1971) to 70 % (Masterson 1994) for angiosperms.

The polyploidy and its key role in plant breeding

Submission Method A journals make the final published version of all NIH-funded articles available in PubMed Central (PMC) no later than 12 months after publication without author involvement. The start date

shown for each journal is the earliest publication date that meets this requirement. Enter a journal name below to see if it uses Submission Method A.

Determine Submission Method | publicaccess.nih.gov

The Standards. Published in Science in 2015 (), the Transparency and Openness Promotion guidelines include eight modular standards, each with three levels of increasing stringency. Journals select which of the eight transparency standards they wish to implement and select a level of implementation for each.

TOP Guidelines - Center for Open Science

Cucurbits (Cucurbitaceae) are among the most important plant families supplying humans with edible products and useful fibers. Plants of this family are very similar in above ground development, but they have high genetic diversity for fruit shape and other fruit characteristics, resulting in a ...
