Principles of Knowledge Representation and Reasoning
An example of declarative knowledge representation and procedural knowledge representation can be seen
in figure 2. Fig. 2. Example of declarative and procedural knowledge. Another important distinction is between
structured and unstructured knowledge, since this has a strong implication on our reasoning processes.

Principles of Knowledge Representation. He is also head of the interest group of nonmonotonic reasoning of
the German Gesullschaft fÃ¼r Informatik. His main research interests are knowledge representation, in
particular nonmonotonic reasoning, preference handling, reasoning about action, models argumentation and
extended logic programming.

The Principles of Knowledge Representation
Requires some formalism - to what we represent ; Thus, knowledge representation can be considered at two
levels : (a) knowledge level at which facts are described, and (b) symbol level at which the representations of

the objects, defined in terms of symbols, can be manipulated in the programs.
