Even among historians of alchemy Raphael Egelinus (1559–1622) is a relatively obscure figure. For years he has stood on the periphery of discussions concerned with Renaissance occult traditions. When mentioned at all it has usually been in the context of a certain type of prophetic literature or as a casual acquaintance of Giordano Bruno.

English physicist and mathematician Isaac Newton produced many works that would now be classified as occult studies. These works explored chronology, alchemy, and Biblical interpretation (especially of the Apocalypse). Newton's scientific work may have been of lesser personal importance to him, as he placed emphasis on rediscovering the occult wisdom of the ancients.
