### **Download [PDF] Publishing Your Medical Research Free**

The 3-D lettering on its bright yellow, orange, purple, and blue cover fails to inform the prospective buyer that it is not about publishing medical research papers at all but about planning a good research study, following it through, analysing the results sensibly (the author is a statistician by training), and presenting honest and valid conclusions so as to maximise the chances of publication.

### **Publishing Your Medical Research Paper: What They Don't**

Writing clearly is critical to the success of your scientific career. Unfortunately, this skill is not taught in medical school or postgraduate training. This article summarizes our approach to the writing and publication of your research. Here we focus on empirical or experimental reports of translational and clinically oriented research.
