Pulmonary hypertension is a heterogeneous group of disorders characterized by a mean pulmonary arterial pressure of 25 mm Hg or greater at rest during right heart catheterization. 1â€“4 Patients with pulmonary hypertension may initially present to family physicians,...

### **Pulmonary Hypertension: Diagnosis and Treatment - American**

I vividly remember my first patient with pulmonary arterial hypertension (PAH) during my internship in 1999.

We admitted a young woman with pulmonary hypertension, clearly miserable from right-sided heart failure. Although she had been followed in our pulmonary hypertension clinic, there was little ...

### **Pulmonary Arterial Hypertension Treatment Guidelines**

Pulmonary arterial hypertension is most often diagnosed in its advanced stages because of the nonspecific nature of early symptoms and signs. Although clinical assessment is essential when evaluating patients with suspected pulmonary arterial hypertension, echocardiography is a key screening tool in the diagnostic algorithm.
