

service engine soon light pdf

A malfunction indicator lamp (MIL), or check engine light, is a tell-tale that a computerized engine-management system uses to indicate a malfunction. Found on the instrument panel of most automobiles, it usually bears the legend check engine, service engine soon, or a pictogram of an engine - and when illuminated it is typically either an amber or red color.

Notes when rebuilding engines. Safety wire: Camnuts. Nuts fit quite loosely onto the threads of many replacement cams...I don't know the specific reason, but after a freshly rebuilt engine began making nasty knocking noises, a complete teardown revealed that the camnut was just pinging against the timing cover...too bad we didn't remove the timing cover FIRST while trying to locate the knock.
