Are Megapixels Everything? Before I get into the Pros and Cons of DSLRs vs Point and Shoot digital cameras I want to address a common misconception that I regularly hear among digital camera owners that a cameras megapixel rating is the main thing to consider when determining a camera's quality.

Should You Buy a DSLR or Point and Shoot Digital Camera?

Should you buy a DSLR or a point and shoot digital camera? This is a question that many people ask when they are looking for a new camera. The answer is not as simple as it seems. There are many factors to consider when making this decision, including your budget, your needs, and your experience with cameras.
