Statistical language learning Luca Onnis - William James Hall

What types of mechanisms underlie the acquisition of human language? Recent evidence suggests that learners, including infants, can use statistical properties of linguistic input to discover structure, including sound patterns, words, and the beginnings of grammar.

Statistical Language Learning - Jun 22, 2016

Because of this lack of mechanistic understanding of statistical learning, it remains unclear how statistical learning is related to other types of learning hypothesized to play a role in language acquisition, including perceptual learning, hypothesis-testing, and rule learning.
