World Academy of Science, Engineering and Technology

Industrial engineering is an inter-disciplinary profession that is concerned with the optimization of complex processes, systems, or organizations by developing, improving and implementing integrated systems of people, money, knowledge, information, equipment, energy and materials.. Industrial engineers use specialized knowledge and skills in business administration, management, mathematics ...

Industrial engineering - Wikipedia

Engineering is the application of knowledge, typically in the form of science, mathematics, and empirical evidence, to the innovation, design, construction, operation and maintenance of structures, machines, materials, devices, systems, processes, and organizations. The discipline of engineering encompasses a broad range of more specialized fields of engineering, each with a more specific ...

Engineering - Wikipedia
