Lean manufacturing or lean production, often simply "lean", is a systematic method for waste minimization ("Muda") within a manufacturing system without sacrificing productivity, which can cause problems. Lean also takes into account waste created through overburden ("Muri") and waste created through unevenness in work loads ("Mura"). Working from the perspective of the client who consumes a ...

We concluded about ten years ago that lean could not be implemented, it had to be led. Interesting to see that people still try - and fail. I'm sorry to hear the book could not grab you all the way to the middle chapter where we actually try to explain how lean is a strategy and what is the underlying business model.

Yes, Lean is a Strategy!!!

A SWOT analysis provides programs and organizations with a clear, easy-to-read map of internal and external factors that may help or harm a project, by listing and organizing a project's strengths, weaknesses, opportunities, and threats.
