

the partograph and how pdf

A partogram or partograph is a composite graphical record of key data (maternal and fetal) during labour entered against time on a single sheet of paper. Relevant measurements might include statistics such as cervical dilation, fetal heart rate, duration of labour and vital signs.. It is intended to provide an accurate record of the progress in labour, so that any delay or deviation from ...

The WHO partograph

The WHO model of the partograph was devised by an informal working group, who examined most of the available published work on partographs and their design.

Preventing Prolonged Labour I: 4. THE PARTOGRAPH: THE WHO

The partograph (sometimes known as partogram) is usually a pre-printed paper form on which labour observations are recorded. The aim of the partograph is to provide a pictorial overview of labour, and to alert midwives and obstetricians to deviations in maternal or fetal well-being and labour progress. Charts have traditionally contained pre-printed alert and action lines.

Effect of partograph use on outcomes for women in

1. Introduction. Approximately 15% of expected births worldwide will result in life-threatening complications during pregnancy, delivery, or the postpartum period .The concept of emergency obstetric and newborn care (EmONC) was introduced by WHO, UNICEF, and UNFPA in 1997 as an organizing framework for the delivery of evidence-based clinical services, as a critical component of any program to ...

Obstructed labour, also known as labour dystocia, is when, even though the uterus is contracting normally, the baby does not exit the pelvis during childbirth due to being physically blocked. Complications for the baby include not getting enough oxygen which may result in death. It increases the risk of the mother getting an infection, having uterine rupture, or having post-partum bleeding.

Obstructed labour - Wikipedia

Childbirth is a profound and powerful human experience. Women often describe feelings of empowerment,

elation and achievement, although other women's experiences include trauma, fear, pain, and loss of control. The way women give birth, either vaginally or by caesarean section, is likely to impact on their feelings. In recent years, caesareans have become safer due to improved anaesthesia and ...
