Ontology or the Theory of Being - Project Gutenberg

The first, and best-known, ontological argument was proposed by St. Anselm of Canterbury in the 11th century C.E. In his Proslogion, St. Anselm claims to derive the existence of God from the concept of a being than which no greater can be conceived. St.

Ontological Arguments (Stanford Encyclopedia of Philosophy)

Philosophy itself however is not the sum total of philosophical writings. Rather it is the process which leads inter alia to the creation of such writings. Hence an ontology of philosophy is neither merely nor even primarily a theory of philosophical language or terminology. Rather, an ontology of philosophy is a theory of the kinds

Foundations of an ontology of philosophy

A number of important philosophical problems are at the intersection of logic and ontology. Both logic and ontology are diverse fields within philosophy and, partly because of this, there is not one single philosophical problem about the relation between them.

The ontological argument St Anselm and Descartes both famously presented an ontological argument for the existence of God. (The word "ontological" comes from "ontology", the study of (-ology) of what exists or "being" (ont).) Their versions of the argument are slightly different, but

The ontological argument - Routledge

The Ontological Assumptions Prior to clarifying the type of ontology used in these studies, it is important to define ontology. Ontology is defined by (Crotty: 2003:10) as "the study of being". It is concerned with "what kind of world we are investigating, with the nature of existence, with the structure of reality as
