solution of optimization problems. If the model has two variables, the graphical method can be used to solve the model. Very few real world problems involve only two variables.

### **USING EXCEL SOLVER IN OPTIMIZATION PROBLEMS**

In fact, the task of problem solving is not that of the computer. It is the programmer who has to write down the solution to the problem in terms of simple operations which the computer can understand and execute. In order to solve a problem by the computer, one has to pass through certain stages or steps. They are 1. Understanding the problem 2. Analyzing the problem 3. Developing the solution 4.
