The process of life is the activity involved in the continual embodiment of the system's pattern of organization. Thus the process criterion is the link between pattern and structure. The process criterion completes the conceptual framework of my synthesis of the emerging theory of living systems.

Capra, Fritjof - The Web of Life | Chaos Theory | Ecology

In The Web of Life: A New Scientific Understanding of Living Systems, Fritjof Capra attempts to present a synthesis of systems models as a new (and improved) way of looking at life. While scientists will often speak of paradigm shifts within a field -- for instance from Newtonian to relativistic physics, or Lamarckian evolution to the Darwinian ...
