Professor Daft has been awarded several government research grants to pursue studies of organization design, organizational innovation and change, strategy implementation, and organizational information processing. Professor Daft is also an active teacher and consultant.

Richard L. Daft - Tehran

To understand the role of theory in empirical research it is useful to distinguish between two different styles of research: theory testing and theory building (Figure 1.2). Theory building Theory building is a process in which research begins with observations and uses inductive reasoning to derive a theory from these observations.

theory and design of steam and gas turbines | Download

There are three major ingredients in social research: the construction of theory, the collection of data and, no less important, the design of methods for gathering data. All of them have to be right if the research is to yield interesting results. We can see these three ingredients in most accounts of good research.
