you as if I have just begun, the real subject of my lecture: "Why the sky is blue". "The sky is blue because the illumination of the sky light is due to the scattering of light by the molecules of the atmosphere".

Why the sky is blue ? By C.V.Raman | Sky | Blue

Why is the sky blue? It's easy to see that the sky is blue. Have you ever wondered why? A lot of other smart people have, too. And it took a long time to figure it out! The light from the sun looks white. But it is really made up of all the colors of the rainbow. When white light shines through a prism, the light is separated into all its colors.
